ASSESSMENT UP HALF A MILLION

New Haven Water Co. Property Valuation in Hamden Exactly Doubled.

As the result of an investigation in the matter of assessment and taxation claimed to be far under the real value, claimed to be far under the real value, in Hamden, the Hamden town authorities have decided, as a first step in solving the assessment question, to reassess the Hamden property of the New Haven Water company from \$500,000, its present assessed valuation, to \$1,000,000. The decision, which is by far the most important one made by the Hamden authorities in the history of the town was decided upon at the suggestion of ex-Representative John O. Shares of Hamden, who disclosed a number of startling facts in connection with the assessment of the New Haven Water company last night, New Haven Water company last night, at the annual Hamden town meeting. In his report, which he compiled from the town records and other town books. Mr. Shares claims that the wa-ter company assessment is ridiculously ow, in many cases the company buying land in Hamden at a high price and having it assessed at a small frac-tion of what the company actually paid for it. The following are a few of the instances, as mentioned by Mr. Shares

It was assessed at a value of \$1.800 by the town assessors. In 1897, the company purchased the Davis property, paying by town records \$3.000 for the land. It was valued at \$500 by the assessors, at a rate of 6 to 1. The Sherman place, bought for \$4.500, was assessed at a value of \$700 by the town.

"Individual property bought by the company in 1900 for \$49.745 was, after some reduction on the grand list, assome reduction on the grand list, as-sessed by the town at \$18,000."

SCHOOL HOUSES MAY NOT BE USED FOR PRIMARY ELECTIONS

Board of Education Surprised at List of Teachers Resigned to Marry.

The plan of having the school rooms

in each district of the city used for primaries and caucuses, as suggested by Alfred E. Veness, superintendent of the Union Typewriter Co., and backed by petitions from eight churches of the city, did not meet with the approval of the members of the Board of Education, at their meeting last evening. At the last regular meeting of the Board this petition was read and a committee was sent out on it. The committee reported that the schools should be used for school purposes only. The Board sustained the report, there being only one discepting value. only. The Board sustained the report, there being only one dissenting voice, that of Col. Elmer H. Havens, who said "These petitions seem to indicate that the people want to use the school houses for these purposes and I think we should submit." It was the opinion of Mr. Veness and the various members of the churches who signed the petitions that the use of the schools would improve politics. The commitwould improve politics. The commit-tee's report was the same as the decision made by the board several years ago, that the school be used for school purposes only. The report was signed by Supt. Deane, and How-ard S. Challenger. It was explained that Richard Murphy, the other mem-ber of the committee had not stread ber of the committee had not signed the report but approved of the recomthe report but approved of the recom-mendation. The petitions to accept the report were from the Emanuel Baptist, Summerfield M. E., First Presbyterian, West End Congrega-tional, First Baptist, King's Highway Congregational, Newfield M. E., Olivet Congregational and First M. E. Churches, all endorsing the project and asking that the petition be grant-ed.

Commissioner Challenger called the attention of the Board to the congested conditions existing at present in some of the schools of the city and suggested the advisability of appointing a committee to look up a site for a new school house which would be a necessity for the future. The board adopted the measure.

The committee on schools recommended the selection of the following teachers and they were declared elected: The Misses Mary F. Dalton, Louise Greninger, Hattie M. Cause for fear of further delay in the permanent paving of Main street was felt by the paving commission at its meeting last night when Secretary Keating announced that the U.S. Wood Preserving Co. had not replied to his correspondence relative to the delivery of wood block in this city except to say that the company was unable to say anything positive about the time when it can make shipments. President Rogers asked if it is possible to repudiate the contract with the company. Mayor Lee thought it would be a good idea to give the contract to the Wyckoff Pipe & Creosoting Co.

JAPAN .. LAND OF COLOR. Farms of Two or Three Acres Divided

Into Many Tiny Fields. Land is so scarce in Japan and the people so numerous that a farm rarely onsists of more than an acre or two. These little farms are divided up into iny fields. During the season of the year in which we made our journey one of these fields was filled with sprouting barley, light green in color; anoth er field, perhaps the next, with vetch, a lavender colored, cloverlike fodder; a neighboring field with a dark green grass from the seed of which a lamp oil is manufactured; another with the pale yellow flowers of the mustard. and scattered here and there fields filled with what looked like a variety of lily, some white, some red, som yellow, but all equally brilliant.

Then to get the complete picture you must imagine patches of flowering azaleas dotting the roadside; towering, round topped camellia trees breaking the sky line with frequent splashes of bright green; usually in the shade of these trees houses with white plastered walls and red tiled roofs; about the more pretentious of these houses white plastered walls, above which appeared profusion of palms, roses and strange native flowers, and in the doorways of the garden walls kimono clad Japanese girls, the kimonos as many and as gayly colored as the garden that framed them.

I have traveled in but one other country that is so gayly colored, and that was some few years ago, when, in the company of a number of other youngsters and an evil smelling magic lantern, I used to make frequent visits to the Land of Primary Colors .-George MacAdam in Outing Magazine.

Good Kitchen Company. One housewife in this town doesn't

know anything about the servant problem, at least so much of it as has to do with the keeping of a maid of all work, the quality of such service not being counted. This is because her servants always become devoted to her because of her brightness and magnanimous treatment of them. Having only the one servant of doubtful skill and accomplishments, this housewife has to spend a good deal of time in her own kitchen. The other day Julia expressed her appreciation this way:
